

Give your government team a lift.

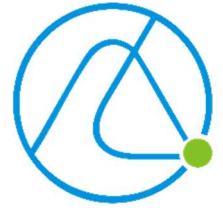

Book an AgileLIFT one-day workshop today.

With past performance in serving the National Geospatial Intelligence Agency (NGA) providing agile software development and delivery, Geodata IT brings their expertise directly to your team.

Our certified Agilist will guide your employees through a series of engaging activities designed to unify, educate, increase results and teach participants to fail fast. For those interested in software development, the difference between Agile and waterfall, along with bi-modal approaches to both will be overviewed.

If your goal is to ignite the fires of mission-focused delivery, this one-day workshop will challenge your team to think outside-the-box with proven methodologies that deliver results.

AgileLIFT

“Geodata IT personnel have successfully demonstrated their ability to deliver value fast. Their contributions to our data-driven Agile Software Development Releases helped us to solve the toughest data problems ...”

– Keith Bingham, Chief Engineer for Ball Aerospace & Technologies Corporation

Meet the Agilist & Solutions Architect:

Justin W. Bennett is President & CEO of Geodata IT, LLC. Justin maintains 18 years of experience in the Department of Defense (DoD) and Intelligence Community information technology industry.

Recognized for achievement in enterprise management, service delivery and enterprise operations by the National Geospatial-Intelligence Agency (NGA), Justin is an innovator in intelligent solutions architecture. As a specialist in designing niche IT strategies, he has helped enterprise companies like NJVC, Raytheon, SAIC, Pragmatics and CSC architect complex systems.

Justin holds a Master of Business Administration, with an Emphasis in Management Information Systems from Southern Illinois University, an AACSB accredited institution that ensures the highest level of business competency. Additionally, he earned his Bachelor of Science in Management Information Systems from Park University, and an Associate of Applied Science from the Community College of the Air Force (CCAF). Justin is a 2016 graduate of the SBA Emerging Leaders Program. He maintains a SAFe Agilist (SA) certification, is an Amazon Web Services (AWS) Certified Solutions Architect Associate, and holds an ITIL v3 Foundation Certification and has a Security+ Certification.

“There is a leader inside of every employee. When you teach a team an iterative process for solving problems, it gives everyone permission to take ownership of the solutions,” said Justin Bennett, President and CEO of Geodata IT, LLC.
